VC - 6000

Designed for Medium to large Conference Rooms

AVIDEQ – VC 6000

The VC6000 offers exceptional affordability as a video conferencing solution tailored for medium to large conference rooms, transforming any meeting space into a hub for video collaboration.

With its high-quality 4k video and crystal-clear audio, inclusivity in conversations has never been more effortless.

The USB/Type-C Plug & Play feature simplifies the deployment & usage of the Video Conferencing system, ensuring a seamless experience.

The VC 6000 integrates with any video conferencing software like Zoom, Google Meet, Microsoft Teams etc. and doesn't require any additional software.

Crystal clear 4k Video & full duplex speakerphone with two additional mic extensions delivers a disturbance free audio, which ensures everyone is seen & heard clearly.

Easily initiate the meeting by connecting with your laptop or opt for excellent audio calls with wireless & Bluetooth.

AVIDEQ **VC - 6000**

Perfect for Medium to large Rooms

The VC 6000 is perfectly suited for gatherings of 14-20 individuals, adaptable to various seating arrangements. It provides top-notch 4K video quality and pristine audio clarity. With its advanced capabilities, facilitating inclusive conversations has never been simpler.
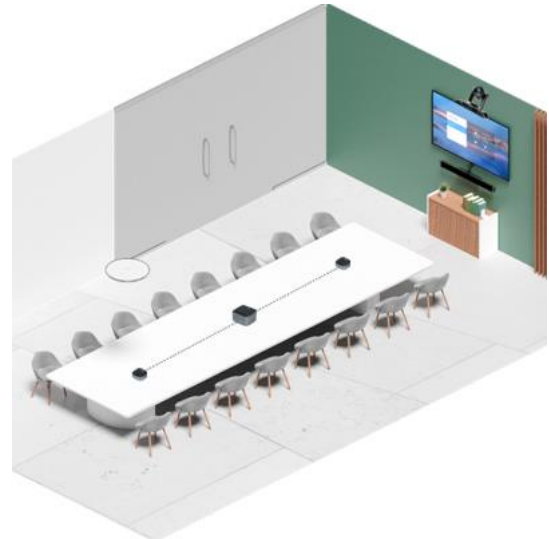

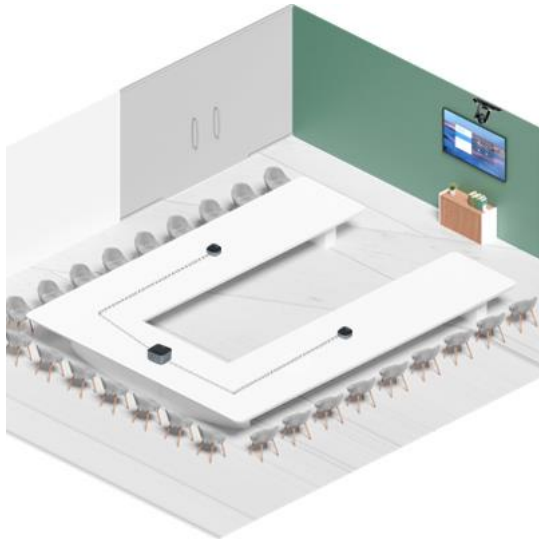

4k Video with PTZ Function

The Camera features 12X Zoom & 4K@30 & 1080P@60/50/30/25 FPS. Perfectly frame Presenter, Audience & Whiteboard.
The camera could be controlled to the focused points quickly by the presets in the meetings.
Advanced AF focusing for Quick Auto focus.

Smart Speakerphone with long range voice pickup

The conference speakerphone with built-in 8 arrays of 360° omnidirectional microphones & two expansion microphones captures sound from all directions, & with a built in 5W loudspeaker, provides clear voice quality, allowing participants to hear more clearly.

LAYOUT DESIGNS

VC-6000 provides flexibility in configuring conference room setups by offering various camera mounting options.

You can place the camera on the table or attach it to the wall using the provided hardware. Additionally, the camera's bottom features a standard tripod thread for increased versatility.

Within a 6m/20' diameter around the base, participants can communicate clearly, and this range can be extended to 9m/28' with expansion microphones.

You can easily connect a laptop to conduct lifelike meetings within your familiar computing environment, compatible with any video conferencing software you prefer.

Furthermore, the state-of-the-art speakerphone supports Bluetooth wireless technology, enabling high-quality audio calls with any devices.

VC-6000 has features like Echo cancellation, noise reduction technology which makes it simple to include everyone in the conversation
